CERTIFICATE OF LISTING

IAPMO Research and Testing, Inc. is a product certification body which tests and inspects samples taken from the supplier's stock or from the market or a combination of both to verify compliance to the requirements of applicable codes and standards. This activity is coupled with periodic surveillance of the supplier's factory and warehouses as well as the assessment of the supplier's Quality Assurance System. This listing is subject to the conditions set forth in the characteristics below and is not to be construed as any recommendation, assurance or guarantee by IAPMO Research and Testing, Inc. of the product acceptance by Authorities Having Jurisdiction.

The most updated information on this Certificate of Listing is available online at pld.iapmo.org

Effective Date: August 2016 -Rev. 8/25/2016- Void After: August 2017

Product: Residential Cation Exchange Water Softeners File No. W-9452

Issued To: Westinghouse Water Treatment
1423 Gunn Hwy
Odessa, FL 33556

Identification: Each product shall be permanently and legibly marked by means of a permanent plate(s) or label(s) affixed in a conspicuous location to the system. This information shall include the equipment name and primary functional description, model number and/or trade designation, name and mailing address of the manufacturer, minimum and maximum working pressure, minimum and maximum operating temperature, electrical characteristics, if applicable, including: supply voltage, supply frequency, and power consumption, a statement that the softener conforms to NSF/ANSI 44 for the specifically claimed performance; and a statement that the softener is not intended to be used for treating water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

For efficiency rated softeners, information shall include:

- the rated efficiency of the softener, the salt dosage and maximum service flow rate at that efficiency, and the capacity at that salt dosage and maximum service flow rate; and
- a statement that the efficiency was determined in accordance with

Chairman, Product Certification Committee

CEO, The IAPMO Group

This listing period is based upon the last date of the month indicated on the Effective Date and Void After Date shown above. Any change in material, manufacturing process, marking or design without having first obtained the approval of the Product Certification Committee, or any evidence of non-compliance with applicable codes and standards or of inferior workmanship, may be deemed sufficient cause for revocation of this listing. Production of or reference to this form for advertising purposes may be made only by specific written permission of IAPMO Research and Testing, Inc. Any alteration of this certificate could be grounds for revocation of the listing. This document shall be reproduced in its entirety.

File No. W-9452

Issued To: Westinghouse Water Treatment

NSF/ANSI 44 and that the efficiency rating is only valid at the stated salt dosage and maximum service flow rate. Efficiency rating information may alternatively be on a conspicuous sticker separate from the data plate;

Product shall also bear the UPC® certification mark.

Characteristics: Residential cation exchange water softeners intended for removal of hardness and the reduction of specific contaminants from drinking water supplies (public or private) considered to be microbiologically safe and of known quality. To be installed in accordance with the manufacturer's installation instructions and the requirements of the latest edition of the Uniform Plumbing Code.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.

Products are in compliance with the following code(s):

Uniform Plumbing Code (UPC®)

International Plumbing Code (IPC®)

Products are in compliance with the following standard(s):

NSF/ANSI 44-2015
